Trey Colvard addressed the board to inform them that they had formed a Parks and Recreation Board and were in the process of applying for the BCBS Playground grant. Mr. Colvard asked if they could apply using the city owned property beside the Municipal Building.

The mayor and board expressed their appreciation and gratitude that the much-needed Parks and Recreation Board was finally happening. The mayor and board were all in agreement for them to apply for the grant using the city property.

Mr. Colvard or Ms. Frechette will present to the mayor and board the Parks and Recreation Board members for approval.

Paul Swafford updated the board on the reason why the Ladder Truck had not been delivered yet. He said that, the motor was down on the foam system and they had it ordered but did not have a delivery date. The man they were purchasing it from said he could go ahead and deliver the truck and come down and put the motor on here or he could wait and deliver it when it came in.

Mr. Swafford informed him that he could just wait since it was inside that they did not have a place inside to house the truck if that was ok with the board if not, he could tell him to go ahead and deliver the truck.

Details of the grant and procedure was discussed. They can apply for a USDA grant that will pay up to 75% and the remaining 25% the city will pay of the addition to fire hall. They will need to solicit for an architect.

Motion was made by Lansing and seconded by Wheeler for permission to solicit for an architect for adding on to existing fire department building.
