### **INDEPENDENT AUDITOR'S REPORT**

Mayor and Alderman City of Pikeville, Tennessee Pikeville, Tennessee

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Pikeville, Tennessee, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

1200 Market Street, Chattanooga, TN 37402 | T 423.756.7771 | F 423.265.8125

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Pikeville, Tennessee as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

### **Other Matters**

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required pension schedules on pages 4-10 and 42-44, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Pikeville's basic financial statements. The introductory section, budgetary comparison schedules, combining and individual nonmajor fund financial statements, other supplementary information and schedule of expenditures of federal and state financial assistance are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The budgetary comparison schedules, combining and individual nonmajor fund financial statements, financial schedules (all included as other supplementary information) and the schedule of expenditures of federal and state financial assistance is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison schedules, combining and individual nonmajor fund financial statements, other supplementary information and schedule of expenditures of federal and state financial assistance is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

### Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 10, 2016, on our consideration of the City of Pikeville's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Pikeville's internal control over financial reporting and compliance.

Chattanooga, Tennessee October 10, 2016

Henderson Hutcherson & McCullongh, PLLC

### CITY OF PIKEVILLE, TENNESSEE MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2016

As management of the City of Pikeville, Tennessee, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City of Pikeville, Tennessee for the fiscal year ended June 30, 2016. We encourage readers to consider the information presented here in conjunction with the City's financial statements.

### **Financial Highlights**

The assets and deferred outflows of the City of Pikeville, Tennessee exceeded its liabilities and deferred inflows of resources at June 30, 2016 by \$17,507,105 (net position). The City's governmental funds reported an increase in combined fund balance of \$78,293. Total government activities under GASB 34 operated at a decrease of \$244,584. The difference is the amount by which depreciation exceeded capital outlay in the current period, unavailable property taxes, and the current period's repayment of long-term debt. See page 17 for the reconciliation.

### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction of the City of Pikeville's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

### **Government-Wide Financial Statements**

The *Government-Wide Financial Statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets, liabilities, and deferred inflows of resources with the difference between the three reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement of some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements distinguish functions of the City that are principally supported by tax and intergovernmental revenues (governmental activities).

The government-wide financial statements can be found on pages 11-13 of this report.

### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Pikeville, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City are either governmental funds or proprietary funds.

#### **Governmental Funds**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for government activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact on the government's near-term financing decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains one major governmental fund and two nonmajor governmental funds, reported as one combined opinion unit. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for each opinion unit, which consists of the General Fund and combined nonmajor funds.

The City of Pikeville adopts an annual budget for its governmental funds. A budgetary comparison statement has been provided for all governmental funds to demonstrate compliance.

The basic governmental fund financial statements can be found on pages 14 through 18 of this report.

#### **Proprietary Funds**

The City of Pikeville maintains one type of proprietary fund, an enterprise fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Pikeville uses enterprise funds to account for its water and sewer and gas operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water and Sewer Fund and Natural Gas Fund, both of which are considered to be major funds of the City of Pikeville, Tennessee.

The basic proprietary fund financial statements can be found on pages 19 through 22 of this report.

#### Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 23 through 41 of this report.

#### **Other Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information concerning the City of Pikeville. This supplementary information can be found on pages 45 through 64 of this report.

#### **Government-Wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows exceeded liabilities and deferred inflows of resources by \$17,507,105 at the close of this fiscal year.

#### City of Pikeville, Tennessee's Net Position

Deferred inflows	335,127	353,004	121,428	161,467	456,555	514,471	
Net position Net investment in							
capital assets	1,155,426	1,449,408	14,308,286	13,139,698	15,463,712	14,589,106	
Restricted	73,506	45,370	122,384	72,239	195,890	117,609	
Unrestricted	165,365	144,103	1,682,138	1,684,008	1,847,503	1,828,111	
Total net position	<u>\$ 1,394,297</u>	<u>\$ 1,638,881</u>	<u>\$ 16,112,808</u>	<u>\$ 14,895,945</u>	<u>\$ 17,507,105</u>	<u>\$ 16,534,826</u>	

Eighty-eight percent (88%) of the City's net position represents net investment in capital assets (e.g. land, buildings and parks, machinery and equipment, vehicles, infrastructure, landfill, utility system and infrastructure, and gas lines and meters). This amount of total net position is not available for future spending. Restricted net position of \$195,890 primarily related to net position restricted for the City's future pension needs. The remaining \$1,847,503 in unrestricted net position is available to the City to meet ongoing obligations.

#### **Changes in Net Position**

Governmental activities decreased the City's net position by \$244,584, while business-type activities increased the City's net position by \$886,607. The City can only use the net position obtained through business-type activities to finance the continuing operations of the water and sewer and natural gas systems.

### Changes in Net Position (Continued)

The table below provides a summary of the changes in the City's change in net position:

r	<u></u> ,		*	,,	*	.,,000	*	.,,	7		<u> </u>	.,,0=0

At June 30, 2015, additions to the Water and Sewer Fund's infrastructure were incorrectly recorded as expenses. Therefore, a prior period adjustment of \$330,256 was recorded to properly state the capital asset and net position balances at June 30, 2015.

### **Financial Analysis of the City's Funds**

As noted earlier, the City of Pikeville uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

#### **Governmental Funds**

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. The unassigned fund balance may serve as a useful measure of a government's net resources available at the end of the fiscal year for future unforeseen emergencies.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$161,337 an increase of \$78,293 in comparison with the prior year. Eighty-five percent (98%) of this total amount constitutes unassigned fund balance.

The general fund is the chief operating fund of the City of Pikeville. At the end of the current fiscal year, unassigned fund balance of the general fund was \$157,825. As a measure of the general fund's liquidity, it may be useful to compare unassigned fund balance to total general fund expenditures. Unassigned fund balance is 11% of total general fund expenditures without transfers.

The fund balance of the City's general fund increased by \$87,556 during the current fiscal year.

### **Proprietary Funds**

The City of Pikeville Tennessee's proprietary funds provide the same type of information found in the governmentwide financial statements, but in more detail.

Unrestricted net position at the end of the year amounted to \$632,091 for the Water and Sewer Fund and \$1,050,047 for the Natural Gas Fund.

#### **General Fund Budgetary Highlights**

The City of Pikeville adopts an annual appropriated budget approved by the City Council.

The overall original budget and final amended budget changed slightly throughout the fiscal year. Expenditure amendments were made to account for variances in operations that were not originally planned. General Fund budgeted expenditures increased \$44,200.

Departmental budget officers closely monitored expenditures during the fiscal year in order to minimize budget amendments.

#### **Capital Asset and Debt Administration**

#### **Capital Assets**

The City of Pikeville's capital assets for its governmental activities as of June 30, 2016, amounted to \$2,164,610 (net of accumulated depreciation). Capital assets for its business-type activities as of June 30, 2016, amounted to \$17,914,122 (net of accumulated depreciation). The City's investment in capital assets includes land, buildings and parks, machinery and equipment, vehicles, infrastructure, landfill, utility system and infrastructure, and gas lines and meters.

Major capital asset additions consist of the following:

Land for \$35,000 Farmers market pavilion for \$175,816 Machinery and equipment for \$14,682 Water and sewer treatment and distribution system for \$1,178,477 Water and sewer equipment for \$26,060 Water and sewer vehicles for \$5,908 Natural gas operating equipment for \$2,596

Additional information on outstanding debt can be found in Note 8 on pages 32-35.

### **Currently Known Conditions Affecting Future Years**

The City of Pikeville, Tennessee is actively engaged in several projects that effect future years. The City also plans to upgrade the Water Treatment Plant and well number 5. The City would also add two new wells to the water system.

#### **Requests for Information**

This financial report is designed to provide a general overview of the City of Pikeville's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information may be addressed to the City of Pikeville, Tennessee, P.O. Box 225, Pikeville, Tennessee 37367.

### RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION

### JUNE 30, 2016

Differences in amounts reported for governmental activities in the statement of net position on page 11:	
Fund balances – total governmental funds	\$ 161,337
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.	2,164,610
The net pension asset is considered a long-term asset and, therefore, not reported in the funds.	97,952
Deferred results and contributions to pension plans made after the measurement date are recorded as expenditures in the governemental funds but must be deferred in the statement of net position	(27,958)
Certain revenues will be collected after year end but are not available soon enough to pay for the current period's expenditures and therefore are deferred or not reported in the funds.	18,252
Long-term liabilities are not due and payable in the current period and are not reported in the funds. All liabilities, both due in one year and due in more than one year, are reported in the statement of net position. These items consist of:	
Bonds and notes payable	(969,542)
Capital leases	(20,010)
Compensated absences	(10,712)
Landfill post-closure costs	 (19,632)
Net position of governmental activities	\$ 1,394,297

### RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

### YEAR ENDED JUNE 30, 2016

Differences in amounts reported for governmental activities in the statement of activities on page 12-13:		
Net change in fund balances – total governmental funds		\$ 78,293
Amounts reported for governmental activities in the statement of activities are different because:		
Capital outlay reported as expenditures in the governmental funds that meet the capitalization threshold are shown as capital assets in the statement of net position.		381,980
Depreciation expense on governmental capital assets are included in the statement of activities.		(193,316)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.		
Notes issued Principal repayments Amortization	(182,123) 55,853 1,227	(125,043)
Certain items reported in the statement of activities do not require the use of current financial resources and are not reported as expenditures in the governmental funds. This item consists of:		
Change in compensated absences Loss on transfer or property and buildings Transfer of property and building	(841,403)	(5,243)
Transfer of note payable	483,800	(357,603)
Change in pension income Deferred pension contributions		12,980 11,644
Certain governmental revenues will not be collected for several months		
after the fiscal year and are deferred in the governmental funds.		 (48,276)
Change in net position of governmental activities		\$ (244,584)

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### The Reporting Entity

The City of Pikeville, Tennessee (the "City") was incorporated in 1939 under Tennessee law. The City is governed by the elected Mayor and four elected Aldermen and provides services to the citizens of the City including police and fire protection, public works, sanitation, solid waste and garbage services, parks and recreation facilities, maintenance of streets and highways, and general administrative services.

As required by accounting principles generally accepted in the United States of America (GAAP), the accompanying basic financial statements includes all the funds and the account groups relevant to the operations of the City.

Blended Component Unit

#### The Industrial Development Board

The Industrial Development Board (Board) was formed on September 25, 1978 and serves all citizens of the government. The Board was formed to promote industrial development within the City. The organization is governed by a board as appointed by City Council. Debt issuance authorizations are approved by City Council, and the City is legally obligated in case there are deficiencies in debt service payments and resources are not available from any other remedies. The Board is reported as a nonmajor special revenue fund and does not issue separate financial statements.

Joint Venture

Sequatchie/Bledsoe County Landfill

The Sequatchie/Bledsoe County Landfill (SBCL) is a joint venture entered into by four governmental entities, Bledsoe and Sequatchie Counties and the cities of Dunlap and Pikeville. The landfill was formed by agreements entered into by these governments for the purpose of providing solid waste disposal for the citizens of Sequatchie and Bledsoe Counties. The landfill is administered under the oversight of a Board of Directors consisting of three people from each county and two from each city. The County Executive of each county and the Mayors of each city are members of the Board, and the remaining members are appointed by these officials subject to the approval of their respective governing body. Financial statements of the SBCL can be obtained by contacting the Bledsoe County Courthouse.

#### **Basic Financial Statements**

The Basic Financial Statements consists of the following:

- 1) Government-wide financial statements;
- 2) Fund financial statements;
- 3) Notes to the basic financial statements.

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Government-wide Financial Statements**

The Government-wide Financial Statements consist of the statement of net position and the statement of activities and report information on all of the nonfiduciary activities of the Primary Government (governmental activities and business-type activities). The City reports capital assets in the government-wide statement of net position and reports depreciation expense – the cost of "using up" capital assets – in the statement of activities.

Governmental activities are normally supported by taxes and intergovernmental revenues. The governmental activities of the City include general government, public safety (police, fire, and animal control), public works, public welfare, culture and recreation and general administrative support services.

The statement of activities reports expenses and revenues in a format that focuses on the cost of each of the City's functions, e.g., public safety, public works, etc. The expense of individual functions is compared to the revenue generated directly by the function. Direct expenses are those that are clearly identifiable with a specific function. The types of transactions reported as program revenues for the City are reported in three specific categories: 1) charges for services, 2) operating grants and contributions, and 3) capital grants and contributions. Charges for services include revenues from customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function. Grant and contributions include revenues restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not included among program revenues are reported instead as general revenues.

#### **Fund Financial Statements**

The fund financial statements provide information about the government's funds, including its blended component unit. Separate statements for each fund category – governmental and proprietary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The City reports the following major governmental fund:

The *General Fund* is the government's primary operating fund and is the only fund that qualifies as a major fund under GASB No. 34. It accounts for all financial resources of the City, except those required to be accounted for in another fund.

The City reports the following major enterprise funds:

The Water and Sewer Fund accounts for the government's water and sewer operations to the City's citizens.

The Natural Gas Fund accounts for the government's natural gas operations to the City's citizens.

Additionally, the City reports the following other fund types:

*Special Revenue Funds.* These funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds. While these balances are reported in the fund financial statements, certain eliminations are made in preparation of the government-wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Fund Financial Statements (Continued)

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

#### Measurement Focus, Basis of Accounting and Financial Statement Presentation

The *government-wide financial statements* are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenue is recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis, revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures and expenditures relating to claims and judgments are recognized only when payment is due.

Property taxes, state-shared revenue, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable within the current fiscal period are considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be available only when cash is received by the City.

The proprietary funds are reported using the *economic resources measurements focus* and the *accrual basis of accounting*.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

#### Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### **Budgets and Budgetary Accounting**

Formal budgets are adopted by the Mayor and City Council as a management control device during the year for the governmental type funds and special revenue funds.

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Budgets and Budgetary Accounting (Continued)

Expenditures may not legally exceed budgeted appropriations at the fund level. Budgetary integration is employed as a management tool during the fiscal year, and the budget is amended, as necessary, to meet changing needs. Council approves departmental budgets. Transfers between departments and any revisions in the total appropriation must be approved by the Mayor and City Council Board of Alderman. Unused appropriations for any of the annually funds lapse at the end of the year.

At June 30, 2016, General Fund expenditures exceeded budgeted appropriations within the debt service function by \$21,116.

#### Cash and Cash Equivalents

For purposes of reporting cash flows, the City considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

#### Investments

The City follows state investment policy guidelines for types of allowable investments.

#### **Inventories and Prepaid Items**

Inventories, which consist primarily of materials used in the Water and Sewer and Natural Gas Funds, are recorded at the lower of cost or market. The cost of such inventories is recorded as expenditures/expenses when consumed rather than purchased.

Certain payments to vendors reflect costs applicable to future reporting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

### Accounts Receivables

With respect to the accounts receivable for water and sewer fees and property taxes, the City uses the allowance method to estimate uncollectible accounts based on a projection of balances unlikely to be collected. Individual accounts are written off only when they are determined to be uncollectible.

### Capital Assets

Capital assets, including property, plant, equipment, landfill and infrastructure assets (e.g., primary and secondary roads, drainage) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined as assets with an initial, individual cost of more than \$500 and an estimated useful life greater than two years. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives is not capitalized.

In the case of the initial capitalization of general infrastructure assets (i.e. those reported by governmental activities), the government chose to include all such items regardless of their acquisition date or amount. The government was able to estimate the historical cost for the initial reporting of these assets through back trending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). Major outlays for capital assets and improvements are capitalized as projects are constructed. The City capitalizes net interest costs and interest earned as part of the cost of construction when material. No interest was capitalized during the fiscal year ended June 30, 2016. Governmental activities capital assets of the City are depreciated using the straight-line method over the following estimated useful lives of the assets are as follows:

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets (Continued)

	Useful Life
Buildings and improvements	15-40 years
Infrastructure	10-20 years
Vehicles	5-15 years
Machinery and equipment	3-7 years
Landfill	50 years

Useful Life

Capital assets of the proprietary funds are accounted for in the respective proprietary fund and are stated at cost or estimated fair market value when original cost is not available. Major additions are capitalized while maintenance and repairs, including the cost of minor items of property, are expensed as incurred. Upon disposal of such assets, the accounts are relieved of the related costs and accumulated depreciation, and resulting gains and losses are reflected in income. Depreciation is computed on the straight-line method over the estimated useful lives of the related assets. The estimated useful lives are as follows:

North Bledsoe system	10-40 years
Water treatment and distribution	5-50 years
Sewer collection and treatment	50 years
Building	30-40 years
Machinery and equipment	5-50 years
Vehicles	5 years
Gas lines and meters	30-40 years
Reservoirs and standpipes	10-50 years

#### **Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow or resources (as either an expense or expenditure) until that period. The City reports deferred contributions on pension plans and certain amounts related to pensions, as detailed as (2) below. Deferred contributions for the pension plan were made during the fiscal year but are after the measurement date of the actuarial report. These amounts will be recognized during the next measurement period.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The government has two types of items, which arise under a modified accrual basis of accounting and full accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported in the governmental funds balance sheet and government-wide statement of net position. (1) The governmental funds and governmental activities report unavailable revenues from property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. (2) Certain amounts related to pensions must be deferred. Differences between projected and actual earnings on pension plan investments are deferred and amortized over five years. Changes in pension plan assumptions are deferred and amortized over the expected remaining service lives of employees.

#### **Net Position Flow Assumption**

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Fund Balance Flow Assumptions**

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

#### **Compensated Absences**

City employees are paid for vacation and absence due to sickness by prescribed formulas based on length of service. Vacation and sick leave for employees of governmental funds are recorded as expenditures in the period it is used and considered payable from current financial resources. Sick leave does not vest for City employees, so no liability exists at year end. Vacation leave is based on employment date, and unused vacation leave does not carry over beyond employment anniversary. Some employees have vacation leave remaining since their anniversary dates cross the fiscal year-end. Government-wide proprietary funds accrue vacation benefits in the period they are earned. A liability for these amounts is reported in governmental funds only if they have matured.

#### Long-term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the applicable governmental and business-type activities statement of net position. Similarly, long-term debt and other obligations of the City are recorded as liabilities in the appropriate fund. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

### Net Position

The government-wide financial statements and proprietary fund financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted.

*Net Investment in Capital Assets* is intended to reflect the position of net assets which are associated with non-liquid capital assets less outstanding capital asset related debt.

*Restricted Net Position* represents net position that has third party (statutory, bond covenant or granting agency) limitations on their use.

Unrestricted Net Position represents net position that is not restricted for any project or other purpose. While management may have categorized and segmented portions for various purposes, the City has the unrestricted authority to revisit or alter these managerial decisions.

#### Fund Balance

Governmental funds utilize a fund balance presentation for equity. Fund balance is categorized as nonspendable, restricted, committed, assigned or unassigned.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### **Fund Balance** (Continued)

*Nonspendable Fund Balance* – represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaids) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

*Restricted Fund Balance* – represents amounts with external constraints placed on the use of these resources (such as debt covenants, grantors, other governments, etc.) or imposed by enabling legislation.

*Committed Fund Balance* – represents amounts that can only be used for specific purposes as pursuant to official action by City Council prior to the end of the reporting period. Committed resources cannot be used for any other purposes unless the City Council removes or changes the specified use by resolution.

*Assigned Fund Balance* – represents amounts the City intends to use for specific purposes as expressed by the City Council or an official delegated the authority to assign amounts. This is the residual classification for all governmental funds other than the general fund. Assignment of amounts to a specific purpose as part of the annual budget ordinance may be made by resolution of motion of the City Council.

*Unassigned Fund Balance* – represents fund balance that has not been assigned to other funds and as not been restricted, committed, or assigned to specific purposes within the general fund.

#### **Property Tax Information**

Property taxes attach as an enforceable lien on the property as of January 1 and are levied for the calendar year in October. They are payable immediately and become past due March 1 of the succeeding year and are subject to assessment of penalties and interest. On February 1 of the following year, the delinquent property taxes are filed with the office of the Bledsoe County Clerk and Master by the Trustee's office.

Property taxes are recognized when they become available. Available includes those property taxes receivable, which are expected to be collected within 60 days after year-end.

Property taxes levied for 2016 are recorded as receivables and deferred inflows of resources. The allowance recorded for uncollectible taxes totaled \$37,510 and was based on historical collection data.

#### **Interfund Transactions**

During the course of normal operations, transactions occur between individual funds for goods provided or services rendered. Short-term interfund loans are classified as "due to/from other funds". Long-term loans between funds are classified as "loans to/from other funds". All short-term interfund receivables and payables at year end are planned to be eliminated in the subsequent year.

#### **Pensions**

For purposes of measuring the net pension liability or asset, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of City of Pikeville's participation in the Public Employee Retirement Plan of the Tennessee Consolidated Retirement System (TCRS), and additions to/deductions from City of Pikeville's fiduciary net position have been determined on the same basis as they are reported by the TCRS for the Public Employee Retirement Plan. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the Public Employee Retirement Plan of TCRS. Investments are reported at fair value.

### NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

### **Compliance with Finance Related Legal and Contractual Provisions**

The City incurred no material violations of finance related legal and contractual provisions.

#### NOTE 3 – CASH DEPOSITS AND INVESTMENTS

#### Cash Deposits

The City reports its cash and other investments under GASB Statement No. 40, "Deposit and Investment Risk Disclosures". This statement eliminated or modified portions of the disclosures previously required by GASB Statement No. 3. GASB Statement No. 40 is designed to improve financial reporting of deposit and investment risks.

The City's investments are carried at fair value which is based on quoted market prices and consist of certificates of deposits totaling \$508,124. The City's investments are listed as cash and cash equivalents within the Statement of Net Position.

#### Interest Rate Risk

As a means of limiting its exposure to losses resulting from rising interest rates, the City's usual policy is to invest in certificates of three years or less. The exposure to interest rate changes is presented using the weighted average maturity method. Its policy is to limit exposure to interest rate risk by requiring sufficient liquidity in the investment portfolio. The City's investments experienced no significant fluctuations in fair value during the year.

#### Custodial Credit Risk

The City's policies limit deposits and investments to those instruments allowed by applicable state laws. State statutes require that deposits with financial institutions must be collateralized by securities whose market value is equal to 105% of the value of the uninsured deposits. The deposits must be covered by the federal deposit insurance or the Tennessee Bank Collateral Pool, by collateral held in the City's agent in the City's name, or by Federal Reserve Banks acting as third party agents. State statutes also authorize the types of investments in which the City may participate. The City limits its investments to certificates of deposit and savings and money market accounts with local banks. The City could also invest with the State of Tennessee local government pooled investment fund, but has not chosen to do so.

#### Credit Risk

The City's policies are designed to maximize its earnings, while protecting the security and providing maximum liquidity, in accordance with all applicable state laws.

#### **NOTE 4 – RECEIVABLES**

Receivables at June 30, 2016, consist of the following:

	General	Other Governmental	Water and Sewer	Natural Gas	Total
Funds Property taxes Accounts Gross receivables Less: Allowance for uncollectible	\$ 313,332 <u>74,134</u> 387,466 (38,125)	\$ <u>1,392</u> 1,392	\$	\$ <u>19,178</u> 19,178 (4,476)	\$ 313,332 <u>503,083</u> 816,415 (50,601)
Net receivables	<u>\$ 349,341</u>	<u>\$ 1,392</u>	<u>\$ 400,379</u>	<u>\$ 14,702</u>	<u>\$ 765,814</u>

#### **NOTE 5 – INTERFUND TRANSFERS**

Transfers within the City are substantially for the purpose of subsidizing operating functions and transferring cash receipt collection on utility accounts. Resources are accumulated in a fund or component unit to support and simplify the administration of various projects or programs. Interfund transfers are transactions between transferring funds out of one fund to support the operations of another fund.

#### NOTE 6 – INTERFUND RECEIVABLES AND PAYABLES

The composition of interfund balance as of June 30, 2016, is as follows:

	1	Payable Fund					
	General	Natural Gas					
	Fund	Fund	Total				
Receivables Fund							
General Fund	\$ -	\$ -	\$ -				
Water and Sewer Fund	1,778	1,773	3,551				
Natural Gas Fund	20,049	<u> </u>	20,049				
Total	<u>\$ 21,827</u>	<u>\$ 1,773</u>	<u>\$ 23,600</u>				

The Natural Gas Fund Statement of Net Position reports a due from other funds balance of \$18,276. The amount is reflective of a receivable from the General Fund of \$20,049 and a payable to the Water and Sewer Fund of \$1,773. The net balance is \$18,276.

The outstanding balances between funds result mainly from monthly utility collections. The Water and Sewer Fund collects sanitation, natural gas, and water and sewer charges, and remits collections to the respective funds after month end closing procedures.

#### NOTE 7 – CAPITAL ASSETS

The following is a summary of changes in capital assets and accumulated depreciation:

	Beginning Balance	Additions	Adjustments/ Retirements	Ending Balance
<b>Governmental Activities</b>				
Non-depreciable capital assets:				
Land	\$ 160,761	\$ 35,000	\$ -	\$ 195,761
Construction in progress		156,482		156,482
Total non-depreciable assets	160,761	191,482		352,243
Depreciable capital assets:				
Buildings and parks	1,848,753	175,816	977,669	1,046,900

#### NOTE 8 - LONG-TERM LIABILITIES

#### **Governmental Activities**

In the government-wide financial statements, long-term debt and other long-term obligations relative to governmental activities are reported as liabilities of the entity. Debt reported in the government-wide financial statements is expected to be liquidated with general government resources. The debt represents amounts not expected to be paid with expendable, available resources, and consists of the following:

Notes:

Note of \$1,000,000 to Tennessee Municipal League Bond Fund, payable in variable, annual installments through 2031, with interest payable monthly at .44%

\$ 787,419

#### NOTE 8 - LONG-TERM LIABILITIES (Continued)

#### Governmental Activities (Continued)

Bond Anticipation Note up to \$1,550,000 to Tennessee Municipal League Bond Fund, payable at maturity on January 8, 2018, including accrued interest per annum 3.125%		182,123
Capital lease obligations:	<u>\$</u>	969,542
Payable to Ford Motor Credit Company in annual installments \$19,310, including interest at 6.10%, through June 2017	\$	18,200
Payable to Applied Concepts, Inc. in monthly installments of \$243.27, including interest at 8.5%, through February 2017		1,810
Landfill post-closure estimate	<u>\$</u>	20,010
Original estimate of \$36,810 amortized over thirty (30) years or \$1,227 per year	\$	19,632
Liability for compensated absences as discussed in Note 1	<u>\$</u>	10,712

Maturities of general long-term liabilities are as follows:

For the Year Ending June 30,		Notes	1	ital Lease ligations		andfill t-closure		pensated bsences		Total
2017	\$	37,000	\$	20,010	\$	1,227	\$	10,712	\$	68,949

#### **Business-type Activities**

Long-term debt and long-term obligations relative to business-type activities are reported as liabilities with the proprietary fund financial statements. Debt related to business-type activities at June 30, 2016, consisted of the following:

### NOTE 8 - LONG-TERM LIABILITIES (Continued)

Business-type Activities (Continued)

Water and Sewer Fund	
Notes:	
Note of \$1,670,000 to USDA Rural Development, Series 2011, payable in monthly installments of \$6,627, including interest at 3.50% through June 2052	\$ 1,616,167
Note of \$60,000 to Tennessee Municipal League, Bond Fund, Series 2014, payable in variable, annual installments, plus semi- annual interest at 3.07% through February 2018	30,900
Note of \$483,000 to USDA Rural Development, Series 2006, payable in monthly installments of \$2,179, including interest at 4.375% through 2046	431,982
Note of \$380,000 to Tennessee Municipal League Bond Fund, Series 2007, payable in variable, annual installments, plus semi- annual interest at 3.68% through December 2016	40,000
Note of \$1,042,700 to USDA Rural Development, Series 2008,	
payable in monthly installments of \$4,609, including interest at 4.375% through 2048	946,787
	<u>\$ 3,065,836</u>
Liability for compensated absences as discussed in Note 1	<u>\$ 5,640</u>

Maturities of water and sewer long-term liabilities are as follows:

For the Year Ending June 30,		Notes		pensated osences		Total

#### **NOTE 9 – LANDFILL POST-CLOSURE COSTS**

The City of Pikeville is involved in a joint venture with the City of Dunlap, Bledsoe County, and Sequatchie County in the Sequatchie/Bledsoe County Landfill. The City of Pikeville shares in the closure and post-closure costs in a ratio equal to the proportion that the City's population bears to the total population of the county.

Rules designated by the federal Environmental Protection Agency and the Tennessee Solid Waste Management Act of 1991 require municipalities operating landfills in Tennessee to be financially responsible for certain closure and post-closure care costs.

Closure and post-closure care costs include:

- The cost of equipment expected to be installed and facilities expected to be constructed near or after the date the landfill stops accepting waste and during the post-closure period.
- The costs of final cover expected to be applied near or after the closure date.
- The costs of monitoring and maintaining the expected usable landfill areas during the post-closure period. Statement No. 18, *Accounting for Solid Waste Landfill Closure and Post-closure Care Costs*, issued by the Government Accounting Standards Board, requires governments to accrue a liability for these closure and post-closure care costs. This liability represents a proportionate share of estimated total current cost of closure and post-closure care. The liability is based on the cost to provide the required care on the date of the financial statements. The amount accrued each period is determined using the depletion method based on the percentage of landfill capacity use during the period. Estimates of closure and post-closure care costs are recalculated each year to reflect the effects of general inflation/deflation, changes in the landfill's closure or post-closure care plan and for changes in operating conditions such as technology or changes in applicable laws or regulations.

The estimated total current cost of closure and post-closure care of the Sequatchie/Bledsoe County Landfill is \$178,473. The City of Pikeville's share of the estimated total current cost of closure and post-closure, based upon population percentages, would be 11% or \$19,632. This amount has been recorded as a liability on the Statement of Net Position, as discussed in the previous note disclosure, Note 8.

#### NOTE 10 – RESTRICTED NET POSITION

#### **Governmental Activities**

Restricted net position represents \$206 restricted for the industrial development purposes; \$3,306 is restricted for drug prevention purposes; and \$69,994 is restricted for the City's future pension needs. Governmental activities restricted net position totaled \$73,506 at June 30, 2016.

#### **Business-type Activities**

Restricted net position represents \$122,384 restricted for the City's future pension needs.

#### NOTE 11 – EMPLOYEE RETIREMENT SYSTEM

#### Tennessee Consolidated Retirement System

#### **General Information about the Pension Plan**

*Plan description.* Employees of Pikeville are provided a defined benefit pension plan through the Public Employee Retirement Plan, an agent multiple-employer pension plan administered by the TCRS. The TCRS was created by state statute under Tennessee Code Annotated Title 8, Chapters 34-37. The TCRS Board of Trustees is responsible for the proper operation and administration of the TCRS. The TCRS. The TCRS beard of state government, administers the plans of the TCRS. The TCRS issues a publically available financial report that can be obtained at <u>www.treasury.tn.gov/tcrs</u>.

#### NOTE 11 - EMPLOYEE RETIREMENT SYSTEM (Continued)

#### Tennessee Consolidated Retirement System (Continued)

*Benefits provided.* Tennessee Code Annotated Title 8, Chapters 34-37 establishes the benefit terms and can be amended only by the Tennessee General Assembly. The chief legislative body may adopt the benefit terms permitted by statute. Members are eligible to retire with an unreduced benefit at age 60 with 5 years of service credit or after 30 years of service credit regardless of age. Benefits are determined by a formula using the member's highest five consecutive year average compensation and the member's years of service credit. Reduced benefits for early retirement are available at age 55 and vested. Members vest with five years of service credit. Service related disability benefits are provided regardless of length of service. Five years of service is required for non-service related disability eligibility. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced 10 percent and include projected service credits. A variety of death benefits are available under various eligibility criteria.

Member and beneficiary annuitants are entitled to automatic cost of living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to the 2nd of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at 3 percent, and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent COLA is granted if the CPI change is between one-half percent and one percent. A member who leaves employment may withdraw their employee contributions, plus any accumulated interest.

*Employees covered by benefit terms*. At the measurement date of June 30, 2015, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	7
Inactive employees entitled to but not yet receiving benefits	16
Active employees	18
	41

*Contributions*. Contributions for employees are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly. Employees contribute 5 percent of salary. The City of Pikeville makes employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. For the year ended June 30, 2015, employer contributions for Pikeville were \$32,871 based on a rate of 4.49 percent of covered payroll. By law, employer contributions are required to be paid. The TCRS may intercept Pikeville's state shared taxes if required employer contributions are not remitted. The employer's actuarially determined contribution (ADC) and member contributions are expected to finance the costs of benefits earned by members during the year, the cost of administration, as well as an amortized portion of any unfunded liability.

#### Net Pension Liability (Asset)

Pikeville's net pension liability (asset) was measured as of June 30, 2015, and the total pension liability used to calculate net pension liability (asset) was determined by an actuarial valuation as of that date.

Actuarial assumptions. The total pension liability as of June 30, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0 percent
Salary increases	Graded salary ranges from 8.97 to 3.71 percent based on age, including
	inflation, averaging 4.25 percent
Investment rate of return	7.5 percent, net of pension plan investment expenses, including inflation
Cost-of-Living Adjustment	2.5 percent

#### NOTE 11 - EMPLOYEE RETIREMENT SYSTEM (Continued)

#### Tennessee Consolidated Retirement System (Continued)

Mortality rates were based on actual experience from the June 30, 2012 actuarial experience study adjusted for some of the expected future improvement in life expectancy.

The actuarial assumptions used in the June 30, 2015 actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2008 through June 30, 2012. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2012 actuarial experience study by considering the following three techniques: (1) the 25-year historical return of the TCRS at June 30, 2012, (2) the historical market returns of asset classes from 1926 to 2012 using the TCRS investment policy asset allocation, and (3) capital market projections that were utilized as a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. Four sources of capital market projections were blended and utilized in the third technique.

The blended capital market projection established the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding inflation of 3 percent. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	Long-Term Expected	
Asset Class	Real Rate of Return	Target Allocation
U.S. equity	6.46%	33%
Developed market international equity	6.26%	17%
Emerging market international equity	6.40%	5%
Private equity and strategic lending	4.61%	8%
U.S. fixed income	0.98%	29%
Real estate	4.73%	7%
Short-term securities	0.00%	1%
		100%

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 7.5 percent based on a blending of the three factors described above.

*Discount rate.* The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current rate and that contributions from the City will be made at the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by state statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### NOTE 11 - EMPLOYEE RETIREMENT SYSTEM (Continued)

#### Tennessee Consolidated Retirement System (Continued)

#### Changes in the Net Pension Liability (Asset)

		Increase (Decrease)				
	Г 	Total Pension Liability (a)		n Fiduciary et Pension (b)		Net Position ability (Asset) (a) – (b)
Balance at 6/30/14	\$	1,949,243	\$	2,296,832	\$	(347,589)
Changes for the year:

Differences between expected						
and actual experience		53,535		-		53,535
Contributions – employer		-		32,871		(32,871)
Contributions – employees		-		36,605		(36,605)
Net investment income		-		69,191		(69,191)
Benefit payments, including refunds						
of employee contributions		(168,960)		(168,960)	)	-
Administrative expense				(1,056)		1,056
Net changes		78,313		(31,349)		(109,662)
Balance at 6/30/15	<u>\$</u>	2,027,556	\$	2,265,483	\$	(237,927)

Sensitivity of the net pension liability (asset) to changes in the discount rate. The following presents the net pension liability (asset) of the City calculated using the discount rate of 7.5 percent, as well as what the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5 percent) or 1-percentage-point higher (8.5 percent) than the current rate:

	1%	Current	1%
	Decrease	Discount Rate	Increase
	(6.5%)	(7.5%)	(8.5%)
Net pension liability (asset)	<u>\$ 563</u>	<u>\$ (237,927)</u>	<u>\$ (438,021</u> )

# Pension Expense (Income) and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Pension income. For the year ended June 30, 2016, the City recognized pension income of \$39,432.

Deferred outflows of resources and deferred inflows of resources. For the year ended June 30, 2016, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	0	Deferred utflows of Resources	In	Deferred Iflows of esources
Differences between expected and actual experience	\$	42,828	\$	96,036
Net difference between projected and actual earnings on pension plan investments Contributions subsequent to the measurement		79,441		107,119
date of June 30, 2015 Total	\$	<u>35,337</u> <u>157,606</u>	\$	203,155

#### **NOTE 11 – EMPLOYEE RETIREMENT SYSTEM** (Continued)

#### **Tennessee Consolidated Retirement System** (Continued)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30:	
2017	\$ (29,149)
2018	(29,149)
2019	(29,149)
2020	6,561
2021	-
Thereafter	<u> </u>
	\$ (80,886)

In the table shown above, positive amounts will increase pension expense while negative amounts will decrease pension expense.

#### Payable to the Plan

At June 30, 2016, the City did not report any outstanding contribution amounts to the pension plan at the year ended June 30, 2016.

#### **NOTE 12 – RESTRICTIONS AND CONTINGENCIES**

#### **Federal and State Grants**

The City has received funds from federal and state grants for specific purposes which are subject to review by the grantor agencies. Such reviews could lead to a request for reimbursement to the grantor agencies for any expenditure disallowed under the terms of the grants. Management believes that such disallowed costs, if any, would be immaterial.

#### NOTE 13 - RISK MANAGEMENT AND LITIGATION

The City of Pikeville is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City participates in the Tennessee Municipal League Risk Management Pool (TML-RMP) to provide workers' compensation coverage and general liability and property insurance. The City, along with other participating entities, contributes annual amounts determined by TML-RMP management. As claims arise they are submitted to and paid by TMP-RMP. During the fiscal year ended June 30, 2016, the City contributed a total of \$71,427 to the fund for this insurance coverage. There were no significant reductions in insurance coverage from the prior year.

#### **NOTE 14 – SUBSEQUENT EVENTS**

Management has evaluated events and transactions subsequent to the balance sheet date through the date of the auditor's report (the date the financial statements were available to be issued) for potential recognition or disclosure in the financial statements. Management has not identified any items requiring recognition or disclosure.

#### NOTE 15 – RELATED PARTY TRANSACTIONS

Alderman Reed Sells is a part owner in a local building supply business. During the year the City purchased items totaling \$12,229 from this business in the normal course of operations.

#### **NOTE 16 – PRIOR PERIOD ADJUSTMENT**

At June 30, 2015, additions to the Water and Sewer Fund's infrastructure were incorrectly recorded as expenses. Therefore, a prior period adjustment of \$330,256 was recorded to properly state the capital asset and net position balances at June 30, 2015.

# SCHEDULE OF CHANGES IN PIKEVILLE'S NET PENSION LIABILITY (ASSET) AND RELATED RATIOS BASED ON PARTICIPATION IN THE PUBLIC EMPLOYEE PENSION PLAN OF TCRS

covered-employee payroll	6.81%	4.49%	4.49%

Note: This is a 10-year schedule; however, the information in this schedule is not required to be presented retrospectively. Years will added to this schedule in future fiscal years until 10 years of information is available.

# NOTES TO PENSION SCHEDULES

# JUNE 30, 2016

Valuation date: Actuarially determined contribution rates for 2016 were calculated based on the July 1, 2013 actuarial valuation.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Frozen initial liability
Amortization method	Level dollar, closed (not to exceed 20 years)
Remaining amortization period	5 years
Asset valuation	10-year smoothed within a 20 percent corridor to market value
Inflation	3.0 percent
Salary increases	Graded salary ranges from 8.97 to 3.71 percent based on age, including inflation, averaging 4.25 percent
Investment Rate of Return	7.5 percent, net of investment expense, including inflation
Retirement age	Pattern of retirement determined by experience study
Mortality	Customized table based on actual experience including an adjustment for some anticipated improvement
Cost of Living Adjustments	2.5 percent

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AND STATE ASSISTANCE

YEAR ENDED JUNE 30, 2016

#### NOTE 1 – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal and State Awards include the federal and state grant activity of the City of Pikeville, Tennessee and is presented on the modified accrual basis of accounting. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

# **COMPLIANCE SECTION**

### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Mayor and Aldermen City of Pikeville, Tennessee Pikeville, Tennessee

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Pikeville, Tennessee as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated October 10, 2016.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City of Pikeville, Tennessee's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

1200 Market Street, Chattanooga, TN 37402 | T 423.756.7771 | F 423.265.8125

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Pikeville, Tennessee's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Chattanooga, Tennessee October 10, 2016

Henderson Hutcherson & McCullongh, PLLC

# SCHEDULE OF PRIOR YEAR FINDINGS

# JUNE 30, 2016

#### **2015-001:** Controls over the Financial Reporting Process

Status: Corrected. Management has implemented a financial closeout process to ensure that all year-end adjustments are posted to the financial records.

# 2015-002: Non-municipal Building Purchase

Status: Corrected. Management transferred the building to Bledsoe County during the fiscal year to be used for industrial development purposes.
